THE HICKMAN COURIER.

The Republican *Standard* will open at Chicago on next Tuesday, June 25. You can buy a copy there.

The Republican National convention meets in Chicago next Tuesday.

You should feel very warm and dry during all hours of the most delicious leisure in the city. *Once facts a place.*

The school fund, says Frankfort *Evening*, under the new school bill, will amount to over \$1,000,000 per year.

The Legislature failed to appropriate any money to continue the work of the Fish Commission, and all applications for fish on file with the Fish Commission are cancelled.

Tilden and Hendricks, and Arthur and Lincoln, will be the Presidential tickets, according to *Today* this week. Next Tuesday will tell the tale of the Republicans.

Spicer, the Southern ex-U. S. State Marshal, who shut down his own son-in-law in the streets of that city, last fall, in cold blood, has been sentenced to hang on July 18th.

You can save 25 per cent in price, and get just as good by buying FIRM-TIDE.

E. T. GARDNER'S.

BEN BUTLER has really got to be a candidate of a party for the office of President. The party that gave it to him is a small one. It is also like its candidate, a pecuniary one. It calls itself "the anti-monopoly" party.

If Tilden declines, Thomas Bayard, of Delaware, will be, or is the most probable.

On the Democratic side, Tilden and Hendricks will be the nominees for nomination. This means in coming from the North, South, East and West. The only doubt about it is, if Tilden will not run.

He is the strongest man in Congress.

W. G. GRANT'S.

If the Democrats would by common consent quit wrangling over the tariff and forego the attempt to tax each other, the party for an effect of operation, leaving the whole question of the determination of the convention at Chicago, it would be fit for the country.

The World's Cotton Exposition which convenes in New Orleans in November, promises to be an altogether more successful affair than its predecessor, the one held in the same city in 1853. It will be well worth the while to go to see it.

H. BUCHANAN.

H. BUCHANAN.

The place to get pure fancy French Cordwain, Linen, Cravat, Lame, Bonnans, Ristens, Nua, &c. A fine line of Simple and Fancy Groomers, &c. We will sell you very well.

4th June.

There are said to be twenty thousand people along the banks of the Mississippi between Vicksburg and New Orleans who are strong supporters of the party of immediate prospect of relief. The ground is still too wet to plant cotton and their only hope is to be able to raise a little grain.

So far seven States have held their conventions to send delegations to the Democratic national convention at Chicago. Of these Oregon, Iowa, West Virginia, New Jersey and Virginia have declared for Tilden. Hendricks, and the other two Pennsylvania has instructed for Randall and Kentucky for Carlisle. They are also for the old ticket as a second choice.

The Agricultural Department having enclosed itself in the investigation of the case of sordidness and demonstrated that the best place to grow cotton is in the Southern States, it is now time to lay out on the best question which promises better results in the Northern States.

Hickman, this State, is all torn up with the ravages of a big scandal in high life which has been developed in the past few weeks. It is hard to say what will be known of its details.

The COURIER is deliberately lacking in its editorial enterprize, and is gradually getting up the details of local scandals for publication in its columns. It is sensational matter, makes a paper eagerly sought after, and is expected to do a large amount of good. Let me see if the good that such publications accomplish, and do know that it causes many hearts, innocent hearts too, to bleed.

PRESIDENTIAL NOTES.

Republican National Convention at Chicago, Tuesday, and will be adjourned for three or four days.

The suit in which Ferdinand Ward is under arrest, says a New York special of Thursday, is brought by James S. Grant, of the U. S. Grant & Ward, Ward, C. Smith and James D. Fish for \$320,000. The suit is said to owe Mr. Tappan, and the suit is to be tried in the U. S. District Court for the City of Indianapolis, said to date.

Lincoln is still off on a six weeks' furlough, and will probably not return until after the convention. He is a sure shot for the second place, and a fair probability for the first.

Logan has no chance, and he has joined forces with Blaine, expecting to get the Vice-Presidency.

The school fund, says Frankfort *Evening*, under the new school bill, will amount to over \$1,000,000 per year.

The Legislature failed to appropriate any money to continue the work of the Fish Commission, and all applications for fish on file with the Fish Commission are cancelled.

The Democrats want them to nominate Blaine, because we stand a better chance to beat him.

Arthur has made a conservative, prudent President, and has the confidence of business Republicans, and will be backed by Blaine.

The strongest man the Republicans can nominate will be Gen. Grant, of Indiana, or some "dark horse."

Lincoln will not be a strong candidate. His strength is only in the fact that he is the son of Abraham Lincoln. It's a mere sentiment.

On the Democratic side, Tilden and Hendricks will be the nominees for nomination. This means in coming from the North, South, East and West. The only doubt about it is, if Tilden will not run.

He is the strongest man in Congress.

W. G. GRANT'S.

It is to be hoped, and all good citizens, irrespective of party, will join in the hope, that Ex-President Grant, is entirely innocent of the swindling operations of the firm of Grant & Ward, of which he was a member.

McDonald, of Indiana, will not run. His nomination would cause a great deal of dissatisfaction to the public.

There is a growing disposition among Democrats to unite and as yet I am apprehensive that feeling will prevail.
